

## Integrated management system policy: **quality & the environment**

---

The Management of Eco Bierzo Composite S.L., aware of the importance of **customer satisfaction and respect for the environment**, has decided to develop, implement and review an Integrated Management System based on the **UNE-EN ISO 9001** and **UNE-EN ISO 14001** standards in its activities:

- Manufacture, storage and machining of composite panels
- Coil coating & processing

The general directives which are established to achieve this objective are the following:

- To promote continual improvement in our integrated management system in all organisational and production processes with the aim of ensuring compliance with our client's requirements.
- A commitment to ensure compliance with all applicable legal requirements as well as any other requirements related to environmental aspects that affect us, preventing any possible contamination arising as a result of our activities.
- To achieve continual innovation and to be able to offer solutions to the current demands of the market involves the participation of all personnel as quality is a key factor in the success of the company.
- To ensure that qualified and capable human resources, as well as the necessary infrastructure and working environments are available to do things better and better and to demonstrate a strong commitment to quality and the environment.
- To bet on high technology in its equipment and on a high qualification and professional capacity in terms of its staff, in order to obtain a reference position in the aluminium enclosure sector.
- To establish annual quality and environmental Objectives.
- To review this policy for its continuing suitability by involving all our staff.

To this end, an Integrated Management System Manual has been drawn up containing the company policy and procedures (and instructions as required) relating to Quality and Environmental Management, which will be applicable to all the activities carried out by Eco Bierzo Composite S.L.

This document is also distributed and available to stakeholders.
